What is CEDS?

The Comprehensive Economic Development Strategy (CEDS) is a locally-based, regionally-driven economic development planning process and document that creates the space for your region to identify its strengths and weaknesses and brings together a diverse set of partners to create good jobs, foster needed infrastructure, diversify the economy, and spur economic growth.

The CEDS has enabled the WNDD regional communities to obtain millions of dollars from federal, state and private funds to establish infrastructure projects, technical assistance for economic planning, provide business training and workforce development.
